Hi Kris,

Thank you so much for last night's inspired (and inspiring) performance--not to mention the many months of development that made it possible!

I'm so impressed with what you've done, both musically and conceptually, with "A River Runs Through Us." You've embraced diversity, a sense of place and a level of self-reflection I've never seen in a middle school chorus concert. That you've attached this effort to our community bridge project is a real gift to all.

Bravo, and thank you!

Scott
