Dear Kris,

I am a Steering and Community Committee member of the Bridge Brigade and I want to thank you and your students for all of the phenomenal efforts put forth to make the performance of "The River Sings its Song" such a beautiful presentation and clearly a huge success. Connecting the middle school chorus students to our community bridge project in such a meaningful and creative manner is one of the most wonderful educational presentations that I have ever had the pleasure to see! As a retired early childhood educator, I know the effort that it took to produce this performance. Creating a unique curriculum-based study via the Great Works River and Vine Street Bridge has allowed each of us to see the natural joy that flows from your creative self to your students. Clearly the students embraced this project with great excitement. It warmed my heart to see all.

It is so clear that your students love you and you them. And, the beautiful song touched my soul!

Please extend my most heartfelt thanks to your students for all of their hard work. The donation was an added surprise and spoke to the sincerity of this project. I praise all of you for this amazing presentation. "The River Sings its Song" will fill our hearts forever!

Well done!!

Best,

Ginny Smith Alterio
