

POSTCARD EXCHANGE

A postcard exchange can be a fun way to keep students connected with one another. If your school is online or hybrid this semester, students might not be getting to experience the social aspects they love from their ensemble music experience. Young and new members in particular may have difficulty getting engaged.

There are different ways this exchange could be structured:

1. Directors to all students
2. Student Leaders to ensemble or sections
3. Buddy System: 1 student to 1 student

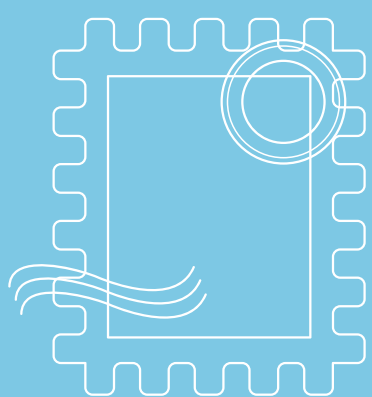

1

1. Use Canva to create a digital postcard for free
2. Send the postcards using students' school emails

2

1. Print physical post cards
 - a. shutterfly.com
 - b. Ink Cards App
2. Send to students in the mail

3

- Students have assigned penpals to correspond regularly
- Match students across sections OR
- Match older students with new members
