Who We Are

The Tarpon Springs Leadership Conservatory for the Arts is synonymous with excellence in and out of the classroom, built on a foundation of steadfast community support. Our program key tenets include:

Adapt and Evolve

Our student performers respond to change and adapt every day, up to the final day of a performance. Our students learn to be flexible responding to change over following a plan.

Immediate Feedback

Our students are given feedback on their efforts at each step. They listen to recordings of themselves, watch videos of their performances, and evaluate their own performance to implement improvements.

Quality Matters

Throughout our performance journey, students learn that every member works relentlessly to becoming the best version of themselves. Ultimately, we have a goal, make a plan, work together, listen to feedback, adapt, and deliver.

Growth-Based Mindset

Two of the most important lessons from participating in the performing arts:

- Never make the same mistake twice
- Every repetition focuses on ways to improve.

Product Delivery to the Customer

While each student has their part, it is the unity of presenting a quality performance that outweighs individual contribution. Everyone learns sacrifices to strengthen the whole; to collaborate, listen, support, encourage, and celebrate together.

Teamwork

Spending months with a group of people working on a single goal distills camaraderie to the purest level. They learn that trust and collaboration of a team is a cornerstone to success. These life skills assist our students in becoming the best version of themselves
